Visualize What Matters

Vincent Higgins, CEO

Reimagine Maintenance and Inspection with Augmented Reality

- **Oil & Gas, Aviation & Aerospace, Utilities**
- **To be effective requires an end to end solution:
 - **Smart glasses and beacon technology connected to a cloud based structure****
- **Remote expert with live video collaboration**

Bringing training and operations together in the same platform

- **“Work as you train, train as you work”**
- **Highest retention rates with VR training**
- **Virtual Reality and Augmented Reality come together in the same platform**
- **Maintenance and Inspection in the same application**
